Yiannis Stylianides was born in Cyprus in 1969. Upon completion of his architectural studies in the United States in 1995, he returned to Cyprus and has worked as a self-employed architect. In 1999, he started again to intensely create works of art to express his feeling, thoughts and experiences. He has an equal passion for sculpting and painting. The whole process of creating a painting or a sculpture takes him out of the daily routine into a beautiful and positive world that he wants to share with everyone through his art. The whole process begins as a visual concept that he works on mentally until he is ready to execute the piece.

He finds very fascinating to explore the use of new techniques and materials in the creative process. One of his main goals is to create art using original methods and unique combinations of materials not applied before. This exhibit includes a series of paintings created using a unique process he developed and called "Constructive Torching". He creates his own composition of paints and then uses a blow torch to apply the paint on wood. This method creates a fascinating texture and gives the painting a three dimensional quality that allows the viewer to see the painting from all angles. It will also include a series of his signature sculpted wood panels depicting plan views of cities and several other paintings on canvas using acrylic paints. For the sculptures, he explored the use of reclaimed wood completely transforming it into beautiful works of art.

His art work is in many private and public collections in Cyprus, United States of America, United Kingdom, Dubai, Italy, Monte Carlo Monaco, France and Greece. A painting of his Cities series has being featured in Saatchi Gallery in London and another one is in the collection of the CBC. Currently several of his large paintings are installed in the main lobby of the Hilton hotel in CY. His latest solo exhibition in Seattle USA was called by the prestigious Artnet Worldwide Corporation as a "must see exhibition".
